

**You're invited.**

**Marches Energy Agency (MEA)** and the **Local Authority Energy Partnership (LAEP)** are joining forces to host a **Community Climate and Energy Day** on **Saturday 25th February** - and you're invited.

The day will begin with Climate Fresk training, a powerful tool for providing a quality climate education that is accessible to anyone and can be quickly scaled up in any organisation or community. Hosted by Rina Jones, LAEP.

The afternoon will be an opportunity for local climate energy projects and campaigns to be shared and to foster collaboration and networking. We want to encourage you to talk about your projects, successes, struggles and lessons learnt. Facilitated by Becky Hughes, MEA.

To sign up please visit: [Community Climate and Energy Day - Derbyshire and Nottinghamshire Tickets, Sat 25 Feb 2023 at 09:30 | Eventbrite](#)

**Please bring your own lunch.**

Please email [ccan@mea.org.uk](mailto:ccan@mea.org.uk) to let us know if you are happy to host small group discussions during the afternoon where others can come and hear all about what you've been doing.

Kindest,  
Becky  
Marketing and Communications Manager – MEA
