

Come and join other local businesses and community organisations at our **FREE** carbon action and networking event in north Derbyshire. In just ninety minutes you'll have

- a soundly based estimate of your carbon footprint
 - a practical action plan for reducing it
- access to resources and advice to help you.

There are lots of reasons to become more sustainable by reducing your carbon footprint, including

- Government rules
- customer demand
- marketing advantages
 - cutting costs,

as well as ensuring there's a business and a planet to hand on to future generations.

With about 6 million small businesses and innumerable community organisations in the UK, if we all do a little, it can make a big difference.

Places are limited - book yours today at
