

Participate in the 2024 business survey to help us shape our support plan across the district.

**If you are a business in North East Derbyshire
please share your views!**

With some businesses still finding it difficult to manage their supply chains and others struggling to diversify their customer base, it is clear that the economy is still quite challenging. At North East Derbyshire District Council we would like to understand how these and other factors like recruitment and skills are impacting on your business.

This survey is aimed at helping the council to understand what business support is needed across the district.

The survey will take between 10-15 minutes to complete and all submissions will be anonymous
