FREE CONDOMS

DERBYSHIRE
County Council

Derby City Council

NHS
Derbyshire Community Health Services
NHS Foundation Trust

This service is funded by Derbyshire County Council and Derby City Council and provided by Derbyshire Community Health Services NHS Foundation Trust.

The campaign is called Access to Services and aims to support young people aged 16–24 to get better access to sexual health services. The campaign is focusing on making our services more visible, approachable, and easy to use.

The campaigns key message are:

- Free condoms are available to everyone
- Our services are free and confidential
- Regular sexual health checks should be a normal part of self-care

The resources are aimed at young people themselves – however also as part of the downloadable content is a sexual health promotion service [brochure](#) – detailing what support is available for professionals.

Please find the downloadable resources here:

<https://www.yoursexualhealthmatters.org.uk/professionals/resources>

How can you help?

You can support the campaign by:

- Displaying posters and leaflets in your organisation
- Sharing our digital content on your own channels
- Spreading the word about free condoms, STI testing and other local services
- Signposting young people to www.yoursexualhealthmatters.org.uk
