

### Team work across North East Derbyshire

We are committed to ensuring that our district remains clean, tidy, and a place that residents can be proud of. Our Streetscene and Community Safety departments along with Rykneld Homes Ltd have been working tirelessly to maintain the beauty and cleanliness of our towns and villages, clearing litter, fly tipping and ensuring pathways are well kept for access.

### Highlights of what we've done across the district

Here are some of the highlights of what we've done:

#### A Successful Collaboration in Heath

Heath was the first area where we successfully coordinated a comprehensive clean-up effort. Our Streetscene team joined forces with the Rykneld estate walkabout to tackle various tasks aimed at improving the local environment. The activities included:

- **Litter Picking:** Our team worked diligently to pick up litter, ensuring that the streets and public spaces are free from debris.
- **Link Path Clearance:** Using a motorised brush, we cleared the link paths, making them safer and more accessible for residents.
- **Vegetation Clearance:** We removed overgrown vegetation from the sides of the paths, enhancing the overall appearance and usability of these areas.
- **Pavement and Side Street Cleaning:** One of our road sweepers was deployed to clear pavements and side streets, leaving them spotless.
- **Fly-Tipping Removal:** We addressed instances of fly-tipping, ensuring that illegally dumped waste was promptly removed.

## Use our 24/7 online reporting service

If you see any littering, fly tipping, abandoned vehicles and anything else that shouldn't be blighting our beautiful district, make sure you report it to us so we can clear and investigate. We have specially trained officers who can seek evidence from the crimes to bring those to justice. It's quick and easy and done in your time [just visit our website!](#)
