

Hi everyone,

Please see details relating to NHS England's Carers Week, Work and Employment Webinar that DAACSS will be presenting at.

Carers Week is held annually and this year, it starts from June 9-15 in 2025. It raises awareness of the challenges unpaid Carers face and celebrates their vital contributions to families and communities.

The NHS England Unpaid Carers team will be running a series of webinars during the week to highlight the importance of identifying and supporting unpaid Carers.

Their third session of the week, under the theme of **'Work and Employment'** is **Become a Carer Friendly Employer** - Supporting Unpaid Carers in the Workplace. Derbyshire Carers Association's Carers in Employment project aims to work with, and support local employers to become Carer friendly workplaces. They will look at the pathway to achieving their quality mark and hear from an employer and employee who have benefitted from this project.

To register and for more information see
