

Joined Up Care Survey

Joined up Care Derbyshire (JUCD) are working on developing a 'one workforce' ethos across health & social care which includes the vital contributions from the voluntary sector.

JUCD's overall vision is : *"that anyone working in health and care within Derby and Derbyshire feels part of one workforce"*

To help JUCD understand the VCSE workforce better they are undertaking a review and our role in that is to ensure that we get responses from as many organisations as we can, representing employees and volunteers.

We are pleased that our sector is being asked to contribute to a survey. Many of our organisations contribute to and significantly support the work of health and social care and it is important that we have a voice about the challenges that our sector faces.

Derbyshire Voluntary Action are supporting this work by reaching out to organisations and groups in Chesterfield, NE Derbyshire and Bolsover to complete the survey.

We want to ensure that our district has a voice and we thank you in advance if you are able to support us with this. Whilst your organisation may not provide health related services, we know that reducing isolation, making connections and having a sense of purpose and belonging can significantly improve health outcomes for people and we think collectively in South Derbyshire, we do a very good job of this.

All information can be submitted anonymously. Results go straight back to JUCD so we will not see this information unless you request our help to complete it.

The link to the survey is here: <https://forms.office.com/e/84q65kF1Xj> and is live until **28th August** if you are able to complete it directly.
